Nicolai Joshua

Senior UX Designer | Strategic UX

I help teams turn complex challenges into intuitive digital products by connecting user needs, business goals and technology. With experience across e-mobility, telecommunications, healthcare and financial services, I bring a strategic and hands-on approach to product discovery, research and UX design.

I enjoy working at the intersection of people, business and technology, collaborating across disciplines to shape meaningful product experiences that create value for both users and businesses.

Experience

Senior UX Designer

Velliv: September 2026 -

Working on digital customer experiences within pensions and financial services, with a focus on simplifying complex processes and making pension more accessible and understandable. Collaborating with product managers, developers and business stakeholders to identify customer needs, uncover opportunities and shape intuitive, user-centred solutions.

Senior UX Designer / UX Lead

Clever: June 2021 - september 2026

Responsible for product discovery, research and end-to-end UX design within Clever's Charging on the Go value stream. Partnered closely with product managers, engineers, UI designers and stakeholders to shape product strategy, concepts and user experiences across a complex ecosystem of drivers, partners, charging networks and business needs.

Key impact

- Increased app CSAT from 49% to 73%
- Reduced app-related support calls by 51%
- Contributed to growing the app from ~10,000 to 300,000+ MAU
- Built and scaled a 5,000-user research panel
- Led product discovery, prototyping and validation across new product concepts

User Experience Consultant

Telenor Denmark: September 2018 - june 2021

Designed and improved digital tools across Telenor's B2C and B2B platforms, including self-service solutions and internal tools for retail employees. Conducted research and workflow analysis to understand user needs and translate operational complexity into scalable product improvements.

Key impact

- Led redesign of B2B self-service portal
- Established B2B customer research panel
- Increased digital self-service adoption
- Designed internal tools for retail employees

User Experience Designer

Region Midtjylland: December 2017 - september 2018

Designed solutions for a healthcare Business Intelligence platform supporting hospitals and healthcare professionals. Conducted user research to understand workflows, decision-making processes and operational needs, translating complex data and requirements into intuitive user experiences that supported better decisions.

Key impact

- Conducted user interviews, workshops and usability testing
- Improved information architecture and data visualisation
- Translated complex healthcare data into actionable insights
- Supported product strategy and stakeholder alignment

Education

Master of Science (MSc) in IT - Interactive Digital Media

Aalborg University: September 2016 - june 2018

Focused on user-centred design, digital product development, and strategic design within complex organisational contexts. My master's thesis examined how user-centred design influences the implementation of business intelligence systems in healthcare.

Bachelor of Arts (BA) in Communication and Digital Media

Aalborg University: September 2013 - june 2016

Focused on digital communication, organisational communication, and the role of digital media in shaping user behaviour and information flows.

Certifications

CPUX-M Certified Professional for Usability and UX

UXQB: June 2025

An international certification focused on UX leadership and organisational integration. Covered UX strategy, governance models, cross-functional collaboration, maturity assessment, and operationalising UX at scale.

Community & Leadership

Co-Founder, ux&coffee

Copenhagen, Denmark: March 2024 -

Co-founded a Copenhagen-based UX community for practitioners focused on knowledge sharing and professional development.
